

Sex and Relationships Education

Embedding SRE within Personal, Social and Health Education Programmes

Free

Half-day module

Learning outcomes

- **Understand how PSHE can support the key judgements for Ofsted**
- **Provide information on the latest local and national guidance**
- **Provide support for planning and implementing a PSHE scheme of work**
- **Know how to create a safe and democratic learning environment that is well managed, where young people feel valued and respected by teachers and peers**
- **Explore a range of targeted teaching methods and classroom techniques that promote active participation and varied effective use of resources including the use of visitors and outside agencies**
- **Consider the issues surrounding confidentiality and child protection**
- **Identify appropriate and sensitive ways to monitor, evaluate and assess teaching and learning**
- **Gain an overview of young people's sexual ill-health and sexual health needs**
- **Have an understanding of what community based services are available to young people and consider how the school can support pupils access to them**
