

## Book your teachers on a SAW Training Workshop!

Since the success of the very first SAW project in 2004 that resulted in the book 'seesaw', we have been keen to roll out the initiative in schools.

We have developed a SAW training workshop and course handbook for teachers that covers everything you need to know to plan and run your own 'In house' SAW project\*. It's an excellent way to reinvigorate your staff whilst also gaining CPD experience and we would be delighted to showcase your SAW adventures on our website.

When: Thursday 20<sup>th</sup> March 4.30-7pm  
Where: John Innes Centre, Norwich  
Price: £120 per person  
Deal!: *Schools sending more than one teacher qualify for reductions;  
1 teacher £120, 2 teachers £200 and 3 teachers come for £250.*

*"SAW projects provide a model of how apparently disparate elements of the curriculum can be combined to great effect."*

**Kevin Blogg, Primary Science Advisor,  
Norfolk County Council**

\*Schools that attend SAW training workshops will be entered into prize draws to win a free 'SAW Classic' project for their school, delivered by SAW scientists, artists and writers in your classroom.
