

## Children's Services Finance STAR ACCOUNTS (SQL) Upgrade to 5.3

The file "Upgrade\_StarSQL.exe" will be available from 27th September 2011.

**DO NOT OPEN THE FILE UPGRADE\_STARSQLE.EXE.  
TO COMPLETE THE UPGRADE YOU MUST FOLLOW THE INSTRUCTIONS BELOW!**

### 1. AVCO Automatic Upgrade – Main PC

**Please Note:** The automatic upgrade will only work if AVCO is accessible on the same PC that operates Star Accounts. If AVCO is not accessible, copy the file **Upgrade\_StarSQL.exe** from your AVCO Finance Inbox into the folder designated as your Inputs Path (see Records, School Details). If the file does not exist please copy from the AVCO Archive folder.

The automatic upgrade will only upgrade the PC that has access to the AVCO Finance Inbox. A copy of the upgraded version of Star Accounts.mdb will be placed into the Star\Backup folder on the server to enable additional users to upgrade.

Start a call in AVCO. Once the call has completed you should see a file called **Upgrade\_StarSQL.exe** in the Finance folder within the Inbox.

Log into Star Accounts from your desktop as you would normally. If you were logged into Star Accounts whilst the AVCO call was being made you will need to log out completely, and then log-in again for the upgrade to take place.

(Please note: If you get an 'Open File – Security Warning' message appear click 'Open' to continue the upgrade)

Star Accounts will close and the following screen will be displayed. Follow the directions on the screen.

---

\*\* star upgrade \*\*

DO NOT CLOSE THIS SCREEN!

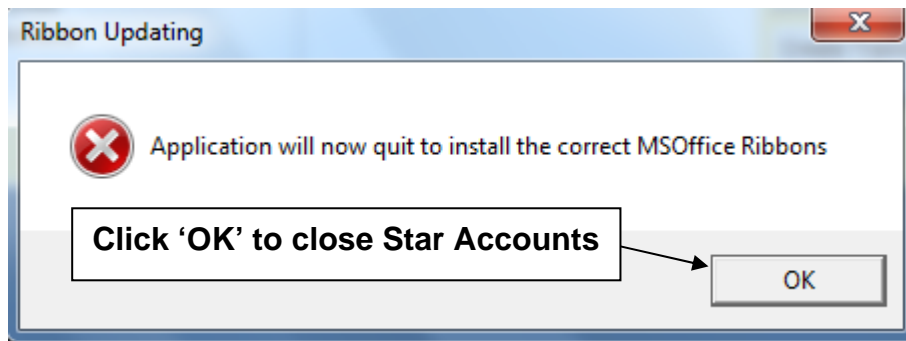

Once the upgrade has been successfully completed (approx 2 minutes) Star Accounts will open automatically.

In the event that this screen remains open for longer than 5 mins or an error message is displayed please contact Computer Accounting.

## Children's Services Finance STAR ACCOUNTS (SQL) Upgrade to 5.3

### Access 2010 only!

Schools using Access Version 2010 will see the additional prompt

Once Star Accounts has closed you can log back into Star Accounts.

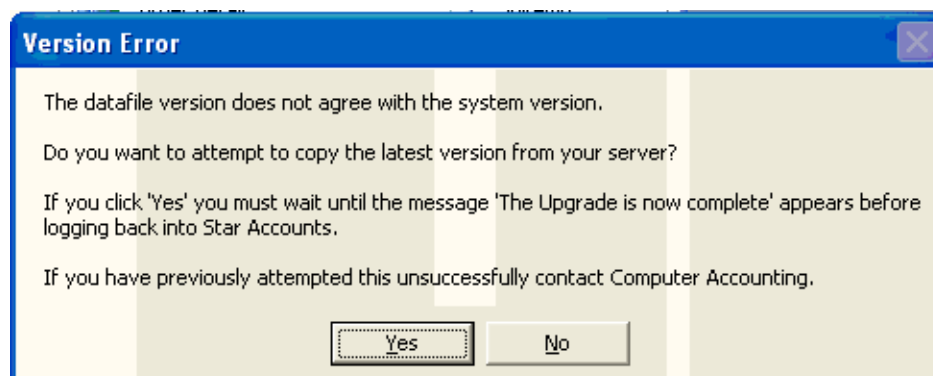

The first time you login the upgrade will update all data files held on your server (including prior year data files). This will take a while but you **must** wait for the following message to appear:

The Main Menu should say 5.32. Remember to log into all other data files to complete the upgrade. If the upgrade is unsuccessful please contact Computer Accounting.

## 2. Upgrade Additional Users

As soon as the data files have been upgraded on the main PC, when other users attempt to log into Star from their PC they should see the following message:

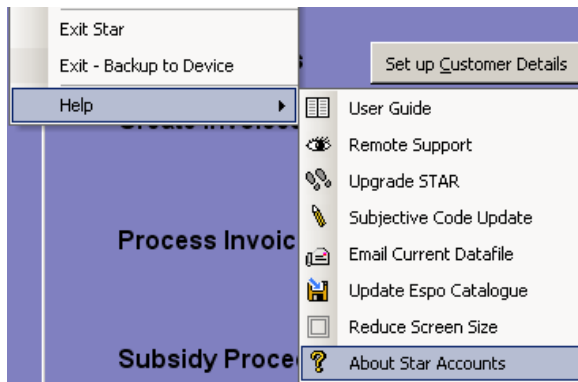

Click '**Yes**' to copy the current version of Star Accounts from the server to the PC. You must wait for the following messages to appear.
