

Conference

Making Achievement Possible: Supporting children's emotional development to enable learning

About Thrive

Children come to school to learn, but some are not ready or able to do so. They may exhibit behaviours that are challenging and disruptive, restless or withdrawn. Current brain science shows that for many of these children, their stress management, emotional regulation and seeking /exploring systems are not yet sufficiently developed for them to access learning.

Thrive helps you assess children using Thrive-Online and then support and manage their emotional development using the Thrive Approach in order to help them re-engage with life and learning.

Who should attend?

The conference is suitable for staff and senior leaders from Primary Schools, Early Years Foundation Units, Nurseries, Children's Centres, Alternative Provision settings and Primary/ Early Years Advisory/Support Staff.

Date: **Thursday 6th June 2013: 12.30 to 16.00**
