Simple visual representation of new home page

The screenshot shows the new FFT Live home screen interface. At the top, there is a navigation bar with 'fft', 'Home', 'Logout', and 'Help' links. Below this is a toolbar with navigation controls (back, forward, search), a '100%' zoom level, a 'Find | Next' button, a 'Select a format' dropdown, and 'Export' and 'Print' icons. The main content area features a grid of eight colorful tiles, each with an icon and a label. A banner at the top right reads 'joining the dots to provide insightful data that active target setting'. Callout boxes provide additional information about the new tiles and banners.
