

sign2sing 2014

Earlier this year, 116,980 children and adults became Guinness World Record Breakers by singing and signing the same song, at the same time across multiple locations.

Now in its fourth year, sign2sing has become a major national fundraising initiative involving over 150,000 primary school children and adults in over 1,000 schools in the UK and abroad.

SignHealth, the healthcare charity for vulnerable deaf children and adults, is aiming to inspire future generations of doctors, nurses, lawyers, healthcare workers and others, to learn sign language. That's why we're inviting every school age child in the country to take part in this fantastic annual event.

What's new for 2014?

It's fun, it's easy to register and it's set to be the biggest signing and singing event to date. This year taking part will be even easier and even more fun:

1. we have brand new songs for you to learn
2. you can pick **any time** on Wednesday 5th February to hold your event and be part of the world record attempt. And if you can't take part that day you can still join the fun at any other time during sign2sing week!
3. a simple online process follows the event

Register at: <http://www.sign2sing.org.uk/register/>

Once registered schools will receive links to new teaching resources and the new songs as they become available.
