

Schools & Family Learning

A Place for High School/Academy/College Students to...

STOP, be still, learn, question, reflect, think, argue, debate, be philosophical, top up on facts, explore ethics supplement exam syllabus content and not necessarily in that order!

All available for you in the Summer term and beyond...

- Here at the Cathedral on one of our bespoke half or full day programmes
- In your school with us facilitating and supplying resources
- Through History/Religious Studies/The Arts, Philosophy & Ethics
- With a multi department /cross-curricular approach

Many county colleagues have been doing it. Please turn overleaf to find out what they've been up to.

Northgate High School Dereham, year 7 had a challenging day which began at the Norwich Islamic Centre, with our Muslim colleagues and members of our team, exploring how Muslims pray and live. They then spent the afternoon at the Cathedral looking at how Christians pray. They spent time silently reflecting in a chapel using Christian artefacts and asked, 'what is prayer?' They took part in deep relaxation before walking the labyrinth. *Learning, experiencing diversity and being attentive to wellbeing, all rolled into one!*

Many thanks to Simon Oldfield, Head of RS and all students and staff.

Sir John Leman High School year 10/11 GCSE, Beccles, explored the Norman Church post 1666, church & state, monasticism & influence of religion in daily life. When you question & learn about it in the vastness of this Norman masterpiece, it kind of soaks in and makes you think! Thanks to Laura, all staff & students.

The Clare School (SEND) Norwich explored how Christians worship with KS3. Lots of hands-on activities prompted responses and discussion. Well done to all!

Dereham Neatherd High School brought year 7 to examine medieval features and worship alongside a Castle visit & Geography walk. *Great day! Thanks History Department.*

We've also worked with 160+ teacher training students from UEA, City College and Inspiration Trust SCITT.

Do ask us about INSET or staff wellbeing sessions.

We're also working with other local high schools to plan in-school discovery days.
