Norfolk Executive Headteacher Network

The Norfolk Executive Headteacher Network is an exciting opportunity for leaders and aspiring leaders to reflect on shared opportunities and challenges and benefit from the collective expertise of others.

The network is open to all executive leaders of partnerships and federations across Norfolk for no cost.

Across the year, half-termly sessions will focus on a range of themes, from developing the culture and ethos for collaboration to maximising the benefit of partnerships and federations and leading improvement across multiple schools.

Sessions will be a mixture of both in-person and virtual twilight meetings. Each will provide the opportunity to listen to, engage with and discuss the insight and experience of others.
