

Who is the training for?

This training is for managers, leaders and frontline staff who work with mums, dads, carers and babies or young children, to contribute to:

- strong parent-child relationships
- increased parental knowledge and confidence in how to support their child's learning and play in day-to-day life
- children's personal, social, and emotional development, communication and language, early literacy and maths, and health and physical development.

The training is relevant whether you work in the Early Childhood and Family Service, a school, nursery, or early years setting; in a health centre, social care setting, library, prison, museum, stay and play or toddler group, or in the home - anywhere that involves working with families.

Aims of the training:

The training equips practitioners to:

- engage and support parents to build on what they already do to enhance their baby's or child's early learning and development (contributing to school-readiness), through talking and playing as part of everyday life,
- explore practical ideas, strategies, and resources, using the comprehensive and flexible Peep Learning Together Programme (followed up by extensive post-course delivery support),
- deliver universal or targeted sessions with parents and children together, to meet local needs - in one-to-one, group or drop-in sessions; indoors, outdoors, or virtually.

Training duration:

Two consecutive days: 9.30 - 4.30pm (full attendance at both days is required)

Training will be fully funded (*conditions apply) through the Family Hub programme, and includes:
