

Securing Success in KS2 Maths

Use your 2019 KS2 mathematics data to have impact.

Course Outline

Discover what the KS2 maths tests tell you about your mathematics provision in school and explore strategies to ensure success.

This session will support you to focus your teaching in Yr6 and ensure that in future years pupils ready to succeed at the end of KS2.

You will have the opportunity to share your experiences and concerns with other local schools and use best practice to overcome challenges in the mathematics curriculum.

A mathematics specialist will expertly guide you through a tried and tested approach to improvement, which has seen numerous schools improve outcomes for children. Using the comprehensive analysis provided, you will be supported to design a personalised strategic action plan, to help pupils make good progress in mathematics.

By the end of the session delegates will:

- Be provided with a detailed Question Level Analysis of the 2019 KS2 mathematics Tests, a 2019 Data Analysis report and a 2016-19 Trend Analysis report
- Be supported to write a clear achievable action plan to improve your KS2 maths results
- Be shown a sustainable model for long term impact in mathematics
