

Primary Mathematics Development for Teachers and Leaders

Schools new to Angles Maths Hub are warmly welcomed and encouraged to attend.

All sessions are free of charge.

Angles Maths Hub is thrilled to announce a series of online sessions for primary maths teachers, leaders and senior leaders to support with Covid-recovery, curriculum catch-up and ongoing mastery development.

Our series of seven, one-hour sessions, allows you and your colleagues to choose from a selection of opportunities, which best support your priorities and areas of development in maths teaching and learning across your school.

We are excited to have a fantastic wealth of experience and knowledge presenting in this unique series of sessions including Mastery Specialists, a Headteacher and NCETM Primary Director, Debbie Morgan!

Topic areas:

**Recovering from the Pandemic
with Debbie Morgan**

**Subject and School Leadership in
Covid-recovery**

**Mastery Development: Learning
from Shanghai**

**Use of Manipulatives and
Representations:**

- **Place Value Counters**
- **Double Sided Counters**
 - **Tens Frames**
 - **Part-whole models**

Participating schools will receive a free manipulatives and representation set aligned to the sessions.

How to reserve your free place:

If you wish to attend all 7 sessions within the series, you will need a reserve your free place at each individual session.

Please follow the link below to our Eventbrite page where you will find more details of sessions, content and presenters:

[Primary Mathematics Development Sessions \(running across Summer 2 and Autumn 1\)](#)

Please note, this remaining series of sessions are repeats of the sessions offered earlier this term.
