

ACTION KIDS!

Action Kids is the most comprehensive and user-friendly teaching approach and resource specially designed for children from 3 – 5 years. The teaching guide (of which most schools have a copy) has information on differentiation, co-ordination and balance, mobility, spatial awareness, manipulative and aiming skills, outdoor and indoor resources, equipment and safety considerations. There is guidance on how to vary and develop movement through the principles of time, weight, space and flow, within a structured activity session. The activities are in progressively structured and illustrated sections. The course is delivered by Val Sabin Publications Ltd. who produce this excellent resource.

The course will cover: ideas for warm-ups, spatial awareness development activities, activities leading to gymnastics, games, dance, parachute play and calming-down activities. These can be used individually on the carpet area or in any combination, indoors or outdoors, depending upon the situation, capabilities of the group, or topic being explored. The course will help you formulate detailed learning objectives and strategies for developing motor, manipulative and creative skills, social and co-operative skills, awareness of space and time, health and hygiene, safety, language and number. The course will also cover ideas for assessing and recording children's progress suitable for all early years practitioners and play leaders.

This course is suitable for anyone working within the Early Years (does not include manual) Course Cost: £140
