

INSET**Early Years Team**

Norfolk Assessment Document Twilight Sessions

Course Details

The new Norfolk Assessment document is now ready. It is designed to build on what the child can do and uses the good observation and assessment processes already in place. It also links together the early stages of assessment with the Foundation Stage Profile. It also offers parents the opportunity to give permission for records to be shared between preschool and school provision.

The decision has been made to make the new document available to schools and childcare settings at a series of twilight and Saturday sessions. These will be locally based and members of the advisory team will be there to explain how the document is intended to operate. There will be time for questions and for the non-maintained settings follow up support will be offered through the Link Teacher team.

Practical Details

Refreshments available from 4.15 pm / 10.15 am

These sessions are free of charge and practitioners will need to meet their own travel, supply and childcare costs. As with all courses this year there will be a charge of £10 for any cancellations made within 5 working days.
