

Developing Mathematical teaching techniques for NQTs, OTTs, Non-Specialists and Returners to Teaching

This one day CPD is a chance to **develop and embed** your knowledge and pedagogy of the KS3&4 mathematics curriculum

This course intends to update all participants with the requirements for teaching the 2008 KS3 Programmes of study and the 2010 GCSE (new specification) for mathematics. The changes in the curriculum at KS3/4 have demanded a particular style of teaching and learning within the mathematics classroom, very different to known traditional styles.

The course will enable participants to grasp the changes, understand what is really required in the classroom and how to adapt their current style of teaching and learning. Participants will also have the opportunity to discuss particular areas of Mathematics teaching, which they would like further guidance on.

Cost: £160 for LA Maintained Schools, £180 for external clients
(Activity ref: ESMA2/F)

Book online at: www.cpd.norfolk.gov.uk/sdms/

**22 November 2011
9.15 am – 4.00 pm**
