Able, Gifted & Talented

Challenge Day

**Saturday 5th November 2011
at Victory Academy, Costessey**

Providing challenge in a creative and innovative way, our Challenge Day offers a range of workshops, which will engage high ability students and encourage high order thinking.

- Drama and expressive arts
- Space - to the Moon and back
- Poetry and Performance
- Maths - navigate the Argo
- Science - into the future and past
- Psychology - exploring the human mind

9.00am – 3.30pm

Our theme is The Greeks, allowing participants to explore the impact of the Greeks on art, creativity, science, astronomy and society.

However, this theme will be a springboard to encourage deeper thinking. During the day, participants will be given opportunities to develop their own ideas about this theme and explore them in new directions.

Dr Lucy Rogers, our keynote speaker

Lucy Rogers has a PhD in bubbles (fluid dynamics), is a Chartered Mechanical Engineer and the author of "It's ONLY Rocket Science, an introduction in Plain English". She is passionate about space and astronomy.

She's a Fellow of the Royal Astronomical Society and Fellow of the British Interplanetary Society. A freelance science writer, she has written for, among others, the BBC, the Guardian and Discovery News.

After finally realising "If not me, who?" this year, she successfully completed the Singularity University Graduate Studies Program and now knows a lot about exponential technologies and global problems and is working on how to save the world from Space Debris.
