Learning Behaviours – Improving Outcomes

The importance of children behaving as learners is fundamental to school improvement. This course explores a range of proactive approaches, from Early Years to Year 6, to create a positive learning environment and will enable schools to examine their own policy and practice around promoting positive behaviours for learning.

What will I get out of it?

- Exploration of a range of practical strategies which can be put into use immediately across the school.
- Examination of the longer term planning necessary to ensure a shared vision around behaviour and learning is established.

Important information

Delegates should bring a copy of their school's current behaviour policy as the development of policy into practice will be an important component of the day.
