

Compost Awareness Week

Do you have some budding artists at school? Help celebrate Compost Awareness Week by painting your compost bin or create a poster to advertise the painted compost bin competition and Compost Awareness Week.

Full details are available on Garden Organics website homecomposting.org.uk. The closing date for the poster competition is 31st March and 12th May for the painted bin competition.

Do let us know how you get on with your painted bins - we would love to see them. Please email a jpeg to compost@norfolk.gov.uk (please note this is not the email to enter the competition with).
