2012

GROUNDS FOR LEARNING – developing your school grounds

Norfolk Integrated Education Advisory Services (NIEAS)

Audience: Teachers, Support staff, volunteers, parent helpers or governors interested in developing school grounds

Context: This new course will take place in a school setting to provide inspiration and ideas to delegates. We will cover the potential for developing school grounds and considerations when locating new outdoor areas. The day will be practical and each delegate will undertake a practical design exercise to increase confidence. We will also explore the principles of permaculture to help ensure schools undertake sustainable grounds development that minimise the use of energy and water resources.

Lunch will be provided and the day will be led by Nell Seal (Advisor Sustainable Schools), Sue Falch-Lovesey (Head of Environmental and Outdoor Learning) and David Yates (County Landscape Architect).

This course will help delegates:
- identify ways of consulting with children and young people about school grounds developments
- understand the potential that exists for grounds developments by taking inspiration from real world examples
- consider the appropriate location of features within school grounds
- take a sustainable approach to grounds developments
- access information about available grants

Important Information:
Parts, or the majority, of the training will be outside, whatever the weather!

To ensure you are comfortable please wear/bring:

Walking boots or walking shoes/trainers that you don't mind getting muddy (waterproof if you have them)	Long trousers
