

FROM GOOD TO OUTSTANDING

'Cambridge Education' will lead this conference – consultants who run a wide range of creative school improvement courses.

Come and join us – discover more ideas about making good teaching into outstanding teaching. This practical course examines how the inspection judgement for outstanding teaching is made based on Ofsted's "Handbook for Inspection" for September 2012. It also reviews what to look for when carrying out lesson observations, alongside skills and approaches that support improvements in practice.
