Short Synopsis

A Midsummer Night's Dream

The 'Dream' is one of Shakespeare's most popular comedies featuring one of his best loved clowns, Bottom.

Our Dream begins in Starveling the tailor's shop where the mechanicals come to rehearse their play for the wedding festivities of the Duke.

The fairies transform this shop into their Steampunk forest where four lovers take refuge and we learn all is not well in the relationships of the forest folk royalty.

After all other characters leave the stage just one remains, suggesting to the audience that what they just experienced might be nothing but a dream. Our production also asks who dreams our dream and whose dreams are those dreams a part of.
