

Following a rigorous and competitive tender process on behalf of ESPO and Norfolk County Council, Supplies Team has been awarded a national contract to provide supplies which include but are not limited to Printer, Fax and Copier machine consumable's (Inks, Toners, Drum unit, Fuser), Data storage Media and all other computer accessories to public sector organisations.

What this means to you is peace of mind of a one stop shop providing best value, next day delivery and dedicated account management. Removing the worry, time, cost and hassle of ringing supplier after supplier to ensure you achieve the best price to meet your ever changing restricted budgets.

Amber Greenwood is the Account Manager at Supplies Team who deals with the Norfolk area.

Amber would like the opportunity to provide evidence of the above by completing a pricing exercise for your Consumables. If you could please provide Supplies Team with as much of your information and where possible include and confirm product codes, usage, spend and current supplier details.

The information will be used to demonstrate comparable products on a like for like basis, the most competitive price for you. Supplies Team are confident that once they have done this they will be able to demonstrate the level of savings you can achieve should you chose to appoint Supplies Team Solutions as your future Consumables provider and will hopefully be impressed enough to use them going forward.

Amber looks forward to receiving some information from you and saving you money, if you need anything further or have any questions please do not hesitate to get in touch with her directly on the contact details below.
