Keynote Speakers

Mick Waters Mick believes in being

close to teachers, children and schools, and is often to be found in the classroom working with children. He has written books on the curriculum, teaching and learning, and management, as well as making presentations at numerous national and international conferences. He is passionate about the role of education in improving life chances for pupils. He enjoys asking adults to look at learning through the eyes of a pupil.

Hywel Roberts Hywel is an Advanced Skills Teacher, a visiting practitioner

to the Bloomsbury Theatre, London, Manchester Metropolitan University, an associate consultant for the University of Wolverhampton and a member of the National Executive for the National Association for the Teaching of Drama. From basic but great classroom pedagogy to developing a 'blended curriculum' to teacher coaching and mentoring (also including TA, AST, NQT development and cover supervisor training) to wonderfully innovative and life-changing strategies such as 'Mantle of the Expert', Hywel covers – and practises – a whole variety of approaches that make learning real for young people and delivers his work with an energy and a humour that is quite, quite infectious.
