

Maths Café Training

This course is aimed at Primary Schools and Special Schools, who have already run Reading Cafe activities.

Put the name of your service here

As a response to schools and families who have benefited from their involvement in Story/ Reading Cafes, the Maths Café was launched in autumn term 2011.

Maths Café training will focus on family learning activities suitable for aged 4-7 and aged 7-12 pupils. The Maths Café course enables teachers to plan and deliver a long term programme that enables all parents and carers to confidently support key aspects of their child's learning and development in mathematics.

This is achieved through a programme of carefully designed, enjoyable activities and opportunities for families which are provided by the setting or school. Mathematical learning outcomes are improved (as well as literacy ones), aspirational learning communities developed and strong partnerships created.

Course code: EPMV6

Course date and time: 24th June 2013 (9.00-4.00)

Course location: Norwich PDC

Course fee: £165
