New £125 Million Heritage Enterprise Programme Launched (UK)

The Heritage Lottery Fund has launched a £125m grants programme aimed at stimulating economic growth by using derelict historic buildings and sites for commercial purposes. Under the programme, known as Heritage Enterprise, grants of between £100,000 and £5 million will be available over the next five years to not-for-profit organisations to help them work in partnership with the private sector in the restoration of unused buildings. Projects will be able to apply for a limited amount of funding for capital works, such as urgent repairs to prevent a building from further deteriorating, while they are being planned. The launch of the scheme coincided with the release of HLF research that found historic buildings are particularly successful in attracting creative industries and new business start-ups. The programme is designed to address market failure, where historic buildings have failed to attract enough investment because the cost of their repair has not been commercially viable for private developers.
