

2013

# Risk Management of Trees for Outdoor Learning & Site Management (level 1 inspection course)

## Environmental and Outdoor Learning

**Audience:** Those using their grounds for learning, those responsible for maintaining school grounds/wooded spaces, Forest School Leaders, Caretakers/Site Managers.

**Context:** Schools must have a system in place to monitor trees in order to comply with the Norfolk County Council Tree Safety Management Policy. To do this they must either undertake this course or pay NORSE who undertake a survey and then write a management plan.

Tree Legal Ltd devised this course and are an approved provider with LANTRA (the industry led body). Dave Dowson will lead participants through a practical day of learning where real case study trees in the Holt Hall grounds are examined. Participants will have plenty of time to ask questions. The day has been devised with integrated assessment so there will be a short set of questions at the end of the day. After the day Tree Legal Ltd will award either certificates of attendance or competence (which state on the reverse side information related to what was covered and the test taken, and provide a report indicating any weak areas for each trainee).

**Important Information:**

Pre-course information will be emailed as an attachment to the booking confirmation nearer to the date of the course so please check with the school office for the attachments.

Parts, or the majority, of the training will be outside, whatever the weather! It would be helpful if you bring a large meat skewer, a mallet and binoculars

**Course Code:** ECNI3

**Course Date:** 12<sup>th</sup> November 2013 from 9.00 am – 4.30 pm at Holt Hall

**Course Fees:** £165.00 per delegate
