

FFT briefing with the experts

This briefing is for **secondary school Headteachers and Chairs of Governors** (or a representative).

Two FFT directors will demonstrate a wealth of data available through FFTlive. **Bring your FFT School Self-Evaluation Booklet and Governor Dashboard** for a guided tour. They will visit the student explorer and share an insight into future developments.

How well do you know your school?

- How well do you understand how the progress of your pupil groups compare to National figures?
- Do you understand how FFT data can support your self-evaluation?
- Are governors ready for the questions Ofsted ask about pupil achievement?
- How much do you know about pupils who join your school? Their SEN and FSM history?

Are you demonstrating Ambition and Challenge?

- How do you know that pupil targets are sufficiently ambitious and challenging?
- How do you pick out the pupils with the potential to make better than expected progress?

Sir Michael Wilshaw, Ofsted's Chief Inspector, said earlier this year, "there will be 'no excuses' for governors who don't understand and challenge their school robustly".

Briefing date:

14th October 2013 Norwich PDC 1.00 pm – 4.00 pm

Activity Reference: EPGP3
