

World War 1 Road Show

A brilliant teaching resource and the perfect opportunity to reinforce prior learning or to develop understanding.

With the centenary of WW1 fast approaching Norfolk Fire and Rescue Services Youth Development Team are currently developing a free Living Heritage Road show supported by the Heritage Lottery Fund.

A living Heritage based project following the life of Private William James Goodchild of the 6th Battalion the Bedfordshire Regiment.

Students follow William on his journey from Suffolk to join the Bedfordshire's at St Pauls Cathedral. Through our carefully choreographed work and clever use of props, students will be caught up in the euphoria of recruitment at that time. Students will enlist with William, taking the Kings Shilling.

Students are offered the opportunity to join William and his PALS in a specially constructed Mobile officers dugout and trench which is carefully constructed to bring alive the sound and smells of trench warfare living conditions.

**If you are interested in further information or would like to voice your interest please contact
