

Come and explore our magical Broadland reserve – where Nature is waiting to be discovered

RSPB Strumpshaw Fen near Brundall is offers the chance for your class to step into another world. It is a world full of beauty and wonder, miles away from the stresses of modern life.

Children visibly change when they spend a day doing exciting hands-on activities such as pond-dipping, exploring the meadow with sweep nets and delving under logs to discover strange mini-beasts. Their eyes light up as they soon catch the wildlife bug. They might see a rare swallow-tail butterfly, a bright kingfisher, or a majestic marsh harrier. Or maybe find a tiny frog, see nesting bluetits or watch a squirrel feeding. We just don't know what Strumpshaw Fen will offer up – but we know they will never forget it!

Our teaching programme is Quality Badge assured and our experienced field teachers strive to give the best possible day to our visiting schools. We are keen to work with schools to deliver a programme that enhances and informs their work back at school. We are always developing our programme to best suit your needs. KS1 and KS2 welcome.
