

Supporting children to spell: practical approaches to embed learning

An opportunity for those seeking to improve their practice in the teaching of spelling, given both the increased emphasis on spelling in the new national curriculum, and the weight spelling carries in the Year 6 Grammar, Punctuation and Spelling test.

When spelling is taught successfully, children become better spellers in their writing across the curriculum. Applicable throughout the primary phase, this course will explore practical and systematic approaches to supporting children in learning to spell in a way which will encourage them not only to understand spelling rules and conventions, but also to go on to apply them practically in their independent writing.

- Develop and deepen understanding of how children learn to spell
- Influence classroom practice, through exposure to practical ideas to challenge and engage pupils.

Date and Time: 6.3.14 from 1.30 pm - 4.30 pm
Venue: Norwich Professional Development Centre
Cost: £90 per delegate
Course Ref: EPGR7
