

Dear All,

Suffolk & Norfolk Initial Teacher Training still has some training places remaining for September 2014 for:

- Mathematics
- Physics
- Chemistry
- MFL
- Computing
- Geography
- Biology

Two options are available: the non-salaried route (Secondary SCITT and School Direct) and the salaried route (School Direct Salaried) with both offering a Postgraduate Certificate in Education with 60 Masters level credits in addition to Qualified Teacher Status.

If we are to maintain a steady stream of new teachers into these subjects in our schools, local teacher training plays a vital part in achieving this as statistics show that the vast majority who train with us become NQTs in Norfolk and Suffolk.

Partnership schools have been very successful in the past in identifying individuals who have the potential to be teachers. If you have anyone in your school community, (including parents) or local community who may be suitable, then please ask them to contact us at SNITT.Admin@suffolk.gov.uk or ring 01473 265080. Full details of all our programmes can be found at www.snitt.co.uk

Finally, you may see in the press that one of our programmes has been ranked in the top ten of the prestigious 'Good Teacher Training Guide 2013' (published by Buckingham University) just behind Oxford University. This goes to show what can be achieved when local schools work together with a local teacher training provider.

As always, we value our partnership with you and if we can be of any help or provide further information about SNITT teacher training courses, please do not hesitate to get in touch.

All best wishes,

Geoff

Geoff Robinson
