To: Maths Co-ordinators  
of all Primary Phase Norfolk Schools

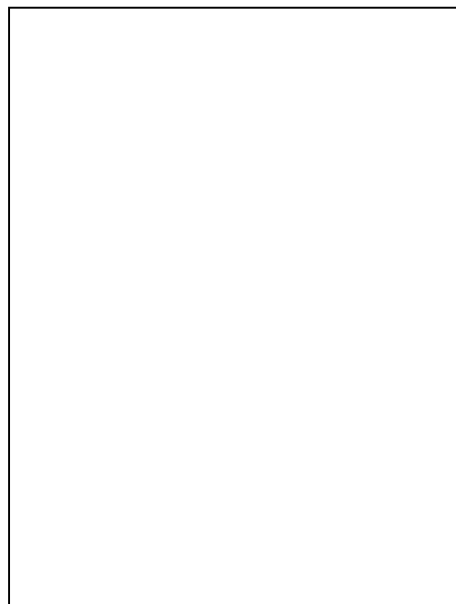

Dear Mathematics Co-ordinator

Remember the

**MATHS ACTIVITY PACK**

We are now producing

**MATHS ACTIVITY PACK 2**

As a result of your very positive feedback about the mathematical activities in this pack, I am once again working with a group of Norfolk Leading Mathematics Teachers on a second pack of activities to support teaching and learning of mathematics. In order to do this we need you and your staff to **send in contributions**. We hope that the book will provide a wide range of ideas for use in oral/mental starters, main activities and plenaries, and will contain contributions from schools throughout Norfolk.

All types of activities that have worked well in your classroom are welcome. We are particularly interested in ideas that focus on problem solving, as this is an aspect of mathematics particularly requiring additional resources and ideas. Children's illustrations and photographs can also be included. There will be an additional section at the end of the book giving details of resources that you recommend e.g. a computer programme, a book, or a practical piece of equipment.

If you have produced your own 'game board' or a template please send a copy but do not send commercially produced materials (just reference to them), as we are not able to include them due to copyright restrictions.

How do you forward your ideas?

- $\pi$  Paper copies of the blank forms to photocopy and complete are enclosed. These should be returned to me at the above address.
- $\pi$  Examples of completed forms to model what we need are also enclosed.
- $\pi$  If an electronic version of the forms would be more convenient, please email me at the address given above and I will forward one by return. The completed forms can be sent back to me as attachments.

Please get thinking, enthuse the rest of your staff and get your ideas to us by **Friday 16<sup>th</sup> May**.

**Your pack will be sent to you during the Summer Term.**

Thank you in anticipation.

Yours sincerely

A handwritten signature in black ink that reads "M Harcourt-Heath". The signature is written in a cursive, slightly slanted style.
