

## **Sexting and Pornography; Meeting the challenge through effective SRE**

### **Course Aims:**

- Recognise and understand the influence of media and pornography on children and young people.
- Consider how to improve the teaching of age appropriate SRE to promote healthy relationships in light of Ofsted's recent review.
- Examine teaching strategies and schemes of work that empower young people to make healthy decisions, challenge peer pressure and rebuff commercialisation and sexualisation.
- Clarify the law and child protection issues relating to sexting and pornography.

*"The failure to include discussion of pornography is concerning as research shows that children as young as nine are increasingly accessing pornographic internet sites."*

Ofsted, Not Yet Good Enough; PSHE 2013
