**The School of Education and Lifelong Learning presents**

# Primary Computing Conference

## 17 June 2014

## Primary Computing Conference

### 17th June – UEA Julian Study Centre

This conference is intended to support primary teachers in their preparation for the new Computing curriculum which starts in September 2014. With input from UEA experts, software providers and teachers already teaching computing in the classroom, this conference will help teachers plan to teach computing from September and beyond. Hands on sessions using software, practical planning activities and take away materials will all be available on the day, in the pleasant surroundings of our newest teaching space, the Julian Study Centre.

The conference will be led by Helena Gillespie, Senior Lecturer in Education and Lead Educator on Teaching Computing open online course.
