

Learning from others - Norfolk International Education Conference 2014

A FREE all day conference which is being held at The Julian Centre, UEA, Norwich on Thursday 10th July 2014.

Come to hear from our international partners about best education practice in China, France and Norway.

There will be presentations from our senior colleagues from China, France and Norway as well as the Pro Vice Chancellor of the UEA, amongst others.

27 senior leaders from across the county visited Shanghai, Toulouse and Trondelag recently to look at professional development, vocational education, inclusion and personalised learning. In the afternoon they will lead workshops, asking you how elements of the best practice they had observed might be adopted and adapted in Norfolk schools to raise standards.
