Free training for schools

Does your school offer before-, after-school
or holiday childcare provision?

**Our free training for schools will help you develop flexible and
affordable childcare for on your school site.**

The free workshops will offer schools the opportunity to learn how they can set up or expand their flexible and affordable provision.

This two-hour free workshop will focus on the challenges that schools typically face when setting up school-based childcare – and what practical measures can be taken to dismantle these barriers.
