

Healthy Norfolk Schools and Norfolk and Suffolk Foundation Trust working together to support schools.

Central Norfolk CAMHS services and Healthy Norfolk Schools would like to invite all primary and secondary school staff to our liaison evenings, beginning in Spring term 2015.

There will be three sessions each term, held around Norfolk which are fully funded and will be FREE for schools to attend.

Each session will include a CPD slot, with input from CAMHS staff on a variety of topics. There will also be a liaison slot, where school staff can meet with CAMHS staff, either individually or in groups, to ask questions, seek advice, make suggestions or request more specific or intensive support for their school. There will be a variety of CAMHS staff in attendance, including the Under 14s Team (based at 'The Bethel'), the Youth Service (based at 80 St Stevens Street, Norwich), and the Eating Disorders Team.

The focus for the Spring Term sessions is managing self-harm in schools.

We would love to see you there!
