Full programmes and  
online booking at  
[www.uea.ac.uk/pgopenday](http://www.uea.ac.uk/pgopenday)

## Study for your Master's degree at the University of East Anglia.

UEA are holding a Postgraduate Open Day on Wednesday 14 January to showcase the range of courses offered by our Science and Medicine and Health faculties. The Faculties span a range of subject areas including:

- Applied Ecology and Conservation (MSc)
- Climate Change (MSc)
- Computing Science (MSc)
- Environmental Sciences (MSc)
- Molecular Medicine (MSc)
- Occupational Therapy (MSc)
- Occupational Therapy (MSc: pre-registration)
- Physiotherapy (MSc: pre-registration)

The open day offers an excellent opportunity for those interested in exploring further study within these subject areas to get a feel for what postgraduate study is like, and to talk to Academic staff about their subject interests.

Our higher education advisers will also be available throughout the day to discuss finance options, and our admissions staff will be pleased to answer any questions you might have about entry requirements and the application process.

For further information and to register your interest, we encourage everyone to [visit our website](#), or contact the Postgraduate Admissions Team on 01603 591515 or [opendays@uea.ac.uk](mailto:opendays@uea.ac.uk).
