# Environmental Learning Cards

Norfolk Integrated Education  
Advisory Service (NIEAS)

This course shares some of the activities in the Outdoor Education Advisers' newly published Environmental Learning Cards and also provides each delegate with a set to take back to school with them. The Cards are supported by a Handbook and CD (provided in the cost of the course). The cards provide participants with a series of easy to follow environmental activities that can be undertaken on or close to the school grounds. Each of the 26 activities stand alone in their own right, or can be further adapted and extended to suit specific needs and learning outcomes. They are divided into four areas of learning:

- Create and Share
- Awareness and experience
- Explore and understand
- Sustain and conserve
