The safe and effective D&T technician

This one-day course is designed primarily for D&T technicians working in the resistant materials area who are new to the job. It will also be of use to experienced technicians. We will cover essential health and safety and offer advice on the layout of the preparation area to ensure safe use of machines, safe storage of hazardous materials, consumable materials, small components and valuable equipment. The course will also include advice and suggestions on tool storage in workshops and the establishment of maintenance and checking systems for tools and machines.

Course aims:

- Essential knowledge for D&T workshop technicians on the operation of resistant materials preparation areas and key aspects of the work of a workshop technician
- Provide awareness of the risk assessments and health and safety issues that impact on the work of technicians
- Awareness of PUWER and other regulations concerning the purchase and installation of equipment and machinery.

Participants who attend the whole course will receive a CLEAPSS Certificate of Attendance.

Date and Time: 30/06/2015 from 9.30 am - 3.30 pm
Venue: Aylsham High School
Cost: £165 per delegate
Course Ref: TLS-0615-T036
