Spanish and Physical Education integrated learning

A high-quality Physical Education programme to support the new national curriculum for languages and cross-curricular learning by integrating the Spanish language into PE lessons.

During the first year of the programme, delegates will be introduced to language fundamentals such as greetings, classroom instructions, colours, parts of the body, family, numbers and animals. Each session will cover these topics and consider how to integrate them into PE lessons. Each school will be provided with a personalised scheme of work integrating basic Spanish into the PE curriculum.

The programme can last one year starting from either YR or Y3 and can be rolled out year-by-year developing delegates language knowledge as well as that of children. During the first year of the project, all year groups learn the same subject content. The main objective of this programme is an early exposure to foreign languages, supporting the new national curriculum for languages and providing for practice of the language in a meaningful context.

We will:

- explore *content and language integrated learning* (CLIL) approaches across Europe
- learn and practise Spanish in a meaningful context.
- learn basic Spanish from a variety of authentic sources.

Dates:	19/05/2015, 18/06/2015 and 10/07/2015
Venue:	Norwich Professional Development Centre
Course Ref:	TLS-0415-T019
