

Diabetes Awareness Training

Course aims:

- To provide up to date information about Diabetes and how best children can manage the condition in school
- To help school staff develop an understanding of how Diabetes is treated and managed and the implications for individual school management and policy
- To provide an opportunity to explore issues of inclusion and equality
- To provide an opportunity to share good practice and problem-solve with colleagues from schools and Diabetic Nurse Specialists
- To provide evidence that schools attending have been pro-active in updating the knowledge and skills of their staff in line with the most recent DfE guidance.

This training will be provided by staff from the three acute Hospitals in Norfolk to support schools at a time when diagnoses of Type 1 Diabetes in Norfolk's children and young people are on the increase. Staff attending will receive a certificate of attendance.

This training is suitable for: Senior Managers, Pastoral Leads, SEND Coordinators and Teaching Assistants.
