

Schools on Reserves

New Outdoor Learning Programme at Strumpshaw Fen – Summer Term dates still available!

The RSPB has just launched a new 'Schools on Reserves' programme with an exciting range of lesson plans available for you and your pupils to enjoy.

This summer, why not join us in exploring the woodland, meadow and pond habitats of Strumpshaw Fen Nature Reserve. Discover our new sand bank habitat and get up close to some of the most flamboyant and secretive wildlife of the Norfolk Broads.

All of our sessions are designed to help children feel at home in nature by encouraging self-initiated discovery, sensory exploration, learning and sharing of information.

Please visit our website to find out more and contact us on (01603) 715191

“I especially enjoyed bird-watching because there was no cars, no noise. It was really calm.”

“The ant trail was awesome!”

“I enjoyed pond dipping. I caught a caddis fly larva and these tiny, tiny things called Water Fleas...”

Comments by Year 4 visitors!

The RSPB is the country's largest nature conservation charity, inspiring everyone to give nature a home.
