

We have made changes to capital income subjective codes, deleting two and amending the usage and description of two. The changes are listed below:

C8651 – Conditional Contributions Received in Year – DELETED

C8652 – Unconditional Contributions Received in Year – DELETED

As the above two codes have now been deleted, when you wish to code income to capital please could you only use one of the below subjective codes:

C8611 – Conditional Grants & Contributions Received in Year

C8612 – Unconditional Grants & Contributions Received in Year

You will need to update the subjective code list on Star Accounts to allow this change to take effect. To do this please click on Upgrade, and then Subjective Codes from the dropdown list.
