

## Assuming the role of Appraiser: *annual performance management of teachers*

**Secure the knowledge, understanding and skills to undertake the role of appraiser effectively.**

This half-day course will enable senior teachers/leaders who have appraisal line management responsibility to fulfil their statutory responsibility effectively. The session will be a blend of information and activities to secure understanding of the process, constructing objectives, monitoring, assessing and recording progress.

- understand the appraisal process framework
- understand the revised link between appraisal, teaching standards, school improvement, capability, Ofsted and governance
- learn how to construct effective appraisal objectives
- consider the management of the appraisal monitoring, assessment and reporting process.
