*Ofsted challenges middle leaders to maintain their knowledge and understanding of national developments and latest good practice in their subject or aspect.*

With the revised national curriculum being introduced in September 2014, new GCSEs in September 2015, changes to KS2 SATs in May 2016 and new accountability measures for both primary and secondary phases, now is the time to join a Professional Network and be supported through these upheavals. With informed expertise and the opportunity to share concerns, ideas and solutions with colleagues across the county, NIEAS Professional Networks are an invaluable resource.

**The Professional Networks are designed to support primary and secondary middle/senior leaders who wish to work and learn together, as they bring about sustained school improvement.**

Our professional networks:

- enable schools to keep abreast of international, national and local developments
- facilitate cooperation, mutual support, the sharing of resources and best practice between schools
- help develop competent and confident leaders
