For all Primary teachers

Getting to Grips with teaching English (Improving English Programme)

Integrated Education ory Services (NIEAS) Upskill yourself in the teaching of English through a newly condensed and streamlined version of our popular programme.

Every teacher is a teacher of English and needs to teach it well. Centred on the belief that children learn best when they are engaged, this programme focuses on bringing cohesively together the core skills and elements needed for good teaching in English.

Delegates will be taken supportively through the process of planning an engaging teaching sequence, based on a quality first text, which will successfully develop the skills children need for writing. They will have the opportunity to try their hand at a whole range of practical and transferable activities as well as develop their own skills in key teaching strategies such as shared and guided reading and writing and developing and using talk for writing.

Course objectives

- understand how to construct outcome led and exciting teaching sequences
- understand how to use texts to support and inspire
- be familiar with the features of effective shared and guided reading and writing
- be aware of the importance of talk
- leave with practical ideas to challenge and engage children
