Outstanding Mathematics Programme for Primary Teachers

The Outstanding Mathematics Programme (OMP) provides teachers with a set of skills and strategies that enable them to become consistently and sustainably outstanding.

The programme will focus on subject knowledge, pedagogy and the role of coaching. Participants will explore a range of aspects of teaching and learning such as: challenge, engagement, assessment, differentiation, questioning and planning. This two-day programme includes practical 'gap' tasks.

Programme content includes:

- exploring innovative and imaginative resources
- understanding misconceptions and barriers to learning
- effective marking and AfL
- problem solving and investigative approaches to teaching that promote conceptual understanding
- developing high levels of literacy and mathematical literacy
- provide a range of enhancement and enrichment opportunities that promote engagement and strengthen learning
- highlight up-to-date current best practice, research and initiatives in mathematics education.

For all primary teachers particularly useful for NQTs, returners to teaching, non-specialists and teachers who need their skills refreshing.
