## Teaching 4 Learning Toolkit: Classroom environment and Culture for Learning: Developing classrooms for the future

impact strengthen  
important extend  
Teaching designed  
knowledge Learning  
teachers areas  
Toolkit

*The Teaching 4 Learning Toolkit has been designed to strengthen and extend teachers knowledge in the areas which will have the most important impact on learning.*

The range of approaches, backed up by the most recent practice based research, are shown to have an impact on outcomes for all learners.

This course will focus on how the physical and emotional environment impacts on the social environment of the classroom.

Each half day course is designed to focus on a specific area of teaching and learning. You may choose to purchase the whole program, or pick those specific to the needs of your school.

By the end of the session participants will :-

- have a clear understanding of a range of strategies that support effective teaching and learning
- know how the physical and emotional environment of the classroom can be used to promote pupil independence and resilience
- have an understanding of the theoretical and evidence based research which underpins this area in the classroom
- be equipped with a range of practical tools to use back in the classroom including evaluation of impact
