

SHERINGHAM PRIMARY NATIONAL TEACHING SCHOOL

GROWTH MINDSET TRAINING

16th May & 6th June 2016
1.00pm to 4.00pm - cost £80.00
at Sheringham Community Primary School

We are excited to be able to offer training on developing a growth mindset culture in school. The programme is based on the pioneering work undertaken by Professor Carol Dweck over the last 40 years, which has highlighted the importance of self-perception on learning. The programme is delivered over two three hour sessions with practical tasks to complete between the sessions.

The strategies shared in the training will support children to:

- Thrive on challenge
- Be resilient
- See the value in effort
- Be receptive to feedback
- Learn from their peers
- Embrace mistakes

"It's not that I'm so smart, it's just that I stay with problems longer."
Albert Einstein

Course objectives:

- To create an understanding of fixed and growth mindset
- To share practical strategies to develop a growth mindset in the classroom and across the wider school
- To highlight the importance of all members of staff having a growth mindset about every child.

We are happy to come to your school or cluster groups to provide training if you have sufficient delegates and a meeting room for us to use. If you are interested in this please do not hesitate to contact Debbie Matthews for more information.
