

Learning to Lead?

New Subject Leadership for Primary Mathematics

Learning to Lead Mathematics: the next step?

Course Outline

Leading Mathematics effectively is one of the most important elements in securing high quality teaching and learning of the subject. By focusing on the role as a Mathematics leader of learning, this course will help you to establish and maintain your vision, get the best out of your team and ensure high quality outcomes for young people and staff.

The course will help specifically identify a subject leader's style and demonstrate how to sustain it. It will explore rigorous and effective systems of monitoring and evaluation whilst sharing proven strategies for maintaining long-term progress in your school / department.

By the end of the course participants will:-

- be provided with skills to audit, monitor and evaluate the effectiveness of Mathematics teaching and learning.
- learn to recognise short term actions to make long term change in the development of a vision of mathematics to raise outcomes for all young people.
- know how to demonstrate your impact and progression to Senior Leadership and Governance.
